

YOUR best hair 24/7

Summer heat and humidity may be gone, but fall presents its own set of coif conundrums. Wind, rain, and the onset of winter's chill can all wreak havoc on your hair. Enter new **Aussie Styling Solutions**—six easy ways to battle the elements and bring out the best in your hair.

tame the rain

Nothing dampens your spirits more than a frizz-inducing fall rainstorm. Fight back with **Aussie Anti-Frizz Cream** to smooth your style and give you 24-hour frizz control. Sleek, lustrous hair has never been so beautifully easy.

break no more

Fighting winter static with excessive combing and brushing? That "solution" unfortunately causes breakage.

Give your hair a high-powered spritz of **Aussie's Anti-Breakage Spray** for strong locks and gorgeous, long-lasting style.

outsmart frizz

Frizz is a seasonless hair woe that causes out-of-control, lackluster hair.

Take control with **Aussie Smoothing Serum**, formulated to fight frizzies and leave you with lustrous locks around the clock.

defeat winter dullness

With the low sun and frosty chill, hair can look and feel dull and lifeless. Revive your hair with **Aussie Spray Gloss**, a special conditioning formula designed to amp up the shine day and night, without leaving a sticky residue.

make the split

Cold, windy weather, indoor heating, and excessive styling are the perfect recipe for split-end disaster. **Aussie Split-End Protector** helps safeguard hair from splitting and reduces hair loss due to breakage.

beat the heat

Blow dryers and hot-styling tools are a girl's best frenemy—they do the styling trick but can leave damaged hair in their wake. Protect your tresses with **Aussie Heat Protecting Shine Spray** and let the sheen shine through all day.
