WHIP

YOUR STYLE INTO SHAPE

With a little damage control, you can restore your hair's health.

IN EVA'S WORDS

“I get my hair done professionally a lot. But being able to get **great results** when I do my own hair—that's really saying something.”

Eva feels the heat of constant coiffing. Between blow-drying, harsh teasing, and overzealous brushing, she knows her hair can turn dull, dry, and lifeless.

That's why Pantene celebrity stylist Danilo recommends that she start her hair routine with **Pantene Daily Moisture Renewal Shampoo** and **Conditioner**. Used together, they nourish, help protect, and hydrate overworked hair.

Next, **Silky Moisture Whip**—both a styler and treatment—helps guard Eva's strands against heat-styling damage and provides the right amount of conditioning moisture for camera-ready hair that shines.

DARE TO FEEL THE TRANSFORMATION!
