

Enhanced Beauty, Serenity, & Energy

The Knoll Acupuncture Facial Rejuvenation program provides tangible results for a wide variety of issues:

- Fine lines and wrinkles
- Crows' feet and deep lines
- Under-eye bags and dark circles
- Age spots and discoloration
- Uneven or dull skin tone
- Acne and rosacea
- Loose neck skin
- Sun damage

Because acupuncture is a whole-body treatment, affecting the flow of energy throughout the body, Knoll Facial Rejuvenation also impacts overall health and energy.

Clients tell us it's the most relaxing and revitalizing 90 minutes they've ever spent. And for those who complete the recommended course of 10 treatments over five weeks, the results — in face, body, mind, and spirit — can be even more noticeable and longer lasting.

Contact us today to schedule your consultation at 732.505.5050, extension 2.

"I really love the facial rejuvenation treatments! My skin tone is more even and my skin is tighter and more refined. I not only look younger, but most importantly, I feel younger and much healthier!"
Barbara C., age 62

Facial Rejuvenation

The Luxurious
Anti-Aging Treatment
That Enhances
How You Look &
How You Feel

The
beauty of
nature is a gift to
those of us fortunate
enough to live, work,
and play along
the shore.

But the forces of nature sun, wind, and weather combined with day-to-day stress and the ordinary passage of time can have a negative, aging impact on facial skin.

An Innovative Approach to Natural Beauty

Knoll Acupuncture offers an innovative, all-natural anti-aging remedy — a facial rejuvenation method that uses the proven and time-honored techniques of Traditional Chinese Medicine to produce healthy, glowing results.

A painless and relaxing alternative to surgery, injections, liposuction, and other invasive cosmetic procedures, the Knoll Facial Rejuvenation program combines acupuncture, acupressure, and traditional herbal skincare products to achieve amazing results:

- More youthful, firm, beautiful skin
- Bright, sparkling eyes
- Full-body relaxation and release of stress
- Increased energy level
- Improved whole-body health

This makes Knoll Facial Rejuvenation unlike anything you've ever experienced before — with benefits that go beyond what you see in the mirror.

The Pleasure of Pampering at the Hands of an Expert

Knoll Facial Rejuvenation is no ordinary facial or massage — it combines the art and science of Traditional Chinese Medicine to offer you a luxurious, healing, natural beauty treatment.

The process begins with a consultation to determine your facial, body, and health issues.

The four-step treatment starts with a painless acupuncture session with a highly trained certified acupuncturist. Here, our clients typically experience a profound sense of relaxation and serenity.

This is followed by a facial massage utilizing acupressure and Nefeli skincare products — a modern line of 100 percent natural, healing formulations designed by an experienced, certified Chinese herbalist.

Next is *Gua Sha* — a step where we exfoliate and bring energy to the skin's surface — followed by the application of a cool, soothing jade roller across the skin.

Finally, we provide recommendations for Nefeli skincare and herbal supplements and a diet and exercise plan to help you sustain the benefits of improved appearance, energy, and sense of well-being.

Experienced & Highly Trained

Knoll Acupuncture and Knoll Facial Rejuvenation founder and president Barbara Knoll is an honors graduate of New York City's Pacific College of Oriental Medicine. She is board-certified by the National Certification Commission for Acupuncture and Oriental Medicine (NCCAOM) and licensed in New Jersey, Pennsylvania, and Florida. She also holds a Master of Arts in Counseling and a certificate in Alcoholism Studies from the College of New Jersey.

Barbara was drawn to acupuncture because of its holistic body-mind-spirit approach to health and wellness. After more than three years— including 3,000+ hours of training and clinical experience — she earned her Masters degree in acupuncture and opened her full-time private practice in 2001.

Today, Barbara continues to invest in ongoing training. She completed a comprehensive course in traditional Chinese medicine facial rejuvenation to bring the benefits of this specialized treatment to her clients.
